

# PLANNING & BUILDING SERVICES AND PUBLIC WORKS FEE SCHEDULE OCTOBER 2017

## BUILDING PERMIT FEES

Building permit fees are based on the valuation of the project. The valuation is determined by using data taken from the Building Valuation Data Sheet printed in the “Building Safety Journal” published by the International Code Council twice a year. This Fee Schedule includes the most recent valuation data and is updated administratively as the data changes twice each year.

In addition to the building permit fee, applicants are responsible for the SBCC fee, plan review fees, plumbing permit fees, mechanical permit fees, grading permit fees, City Engineer review fees, Planning review fees, and other fees established by the current adopted fee schedule, as applicable.

The majority of projects within the City of Liberty Lake also participate in the Harvard Road Mitigation Plan, in lieu of a transportation impact study. The fees charged in conjunction with this mitigation plan are applied towards City transportation improvements and are based on the types of land uses associated with the project. Please contact Planning & Building Services for more information on adopted mitigation fees.

### Single Family Residential Valuation

**On residential type structures and additions, the valuation is based on the following:**

Main Floor	<i>Value per sq. ft.</i>
new	\$116.15
additions	\$116.15
Second Floor	
new	\$116.15
additions	\$116.15
Basement	
finished	\$43.55
partial	\$21.78
unfinished	\$21.00
Private Garages, Storage Buildings, & Barns	\$45.92 or Contract Value Per Ft.
Open Carports	\$18.90
Decks *	
covered	\$27.36
uncovered	\$21.33

\* Decks and patios may be disregarded in computing the valuation of a new house unless they are covered structures or more than 30 inches above ground level.

All valuations should be “rounded up” to the nearest \$1,000 for fee calculation purposes. Valuations are calculated at time of application and shall be based on City Staff figures.

Fees for repair, alteration, remodel, or foundation work are based on the total value of work to be performed as submitted by the applicant.

## **FEE ADMINISTRATION**

### A. General Administration of Fee Schedule.

1. All of the required fees will be paid at the time of application or when the applicant requests information or service for which a fee is charged above and is rendered without an application being filed, provided that for hourly fees the applicant will be billed and the fees paid before the decision is made and findings signed. For building permits, permit fees will be due at time of permit issuance.
2. Commercial Plan Review, City Engineer Review, and Planning Review - When City review has been conducted and a building permit has not been issued due to a project being cancelled, withdrawn, or expired, the City reserves the right to invoice applicants for the above fees and excessive staff time, as applicable.
3. Each action for which there is a listed fee above will constitute a separate action, and the fee will be computed as determined above (i.e. each variance request is a separate action). Projects containing multiple buildings with the same plan set will only be charged a single commercial or residential plan review fee per building type, at the discretion of City Staff.
4. Measurement of acreage will be rounded to the nearest full acre except for areas less than one acre, which will be computed as one acre.
5. Hourly wages will be rounded to the nearest ½ hour as noted except for hours less than ½ hour, which will be computed as ½ hour.
6. The value of projects and / or construction shall be determined by using data taken from the Building Valuation Data Sheet printed in the "Building Safety Journal" published by the International Code Council twice a year. This Fee Schedule includes the most recent valuation data and is updated administratively as the data changes twice each year. If no building permit was required or the building permit was issued more than one year ago, the value shall be determined by the Building Valuation Data Sheet, per County Assessor records, awarded construction bid, estimated construction cost, or other comparable means, as determined by City Staff.

B. Refund policy.

1. An 80% refund of fees will be provided if the Planning & Building Services Manager and/or City Engineer, in consultation with the Community Development Director, or his/her designee, determines that, although the application may have been accepted, no processing by the City has occurred.
2. A 50% refund of fees will be provided if the Planning & Building Services Manager and/or City Engineer, in consultation with the Community Development Director, or his/her designee, determines that the request is made prior to any mailing of notice or if any processing by the City has occurred.
3. No refund of fees will be provided after an administrative decision / interpretation is rendered or after the mailing of notice unless the application is withdrawn at the City's request.
4. Full refund of fees, may be authorized if the City has inappropriately told an applicant that a permit / action is required and later it is determined by the City that the permit / application was not necessary / required.

C. Automatic Modification of Fee Schedule

The Planning & Building Services and Public Works Fee Schedule shall be automatically administratively modified twice a year to remain current with the Building Valuation Data Sheet printed in the "Building Safety Journal" published by the International Code Council twice a year. Additionally, the fee schedule will be reviewed for a yearly cost of living adjustment.

D. Waiver of Fees.

The Planning & Building Services Manager and/or City Engineer, in consultation with the Community Development Director, or his/her designee, may waive all or a portion of the fees established herein for special individual circumstances where there is extreme economic hardship, issues of fundamental fairness, or where application of the fee schedule is otherwise unreasonable or impractical. Requests for the waiver of fees shall be made in writing to the Manager, stating a reason for the waiver. The decision shall be indicated by letter stating the basis for approval or denial of the waiver and the decision is final and binding.
